Attorney for Defendant
Irene Pemkova

UNITED STATES DISTRICT COURT
CENTRAL DISTRICT OF CALIFORNIA

| | |
|---------------------------|-------------------------------|
| UNITED STATES OF AMERICA, |) Case No.: SA CR 08-180-DOC |
| |) |
| Plaintiff, |) EX PARTE APPLICATION FOR AN |
| |) ORDER CONTINUING TRIAL AND |
| vs. |) REQUESTING HEARING |
| |) |
| IRENE PEMKOVA, |) Hearing Date: 9/5/13 |
| |) Hearing Time: 7:30 a.m. |
| Defendant |) |

Defendant, Irene Pemkova, by and through her attorney of record, Diane C. Bass, hereby applies to this court ex parte requesting that the trial currently set for September 17, 2013 be continued to a date in March or April of 2014 because of medical issues. Defendant further requests a hearing on this matter.

Dated: August 29, 2013

Respectfully submitted,

_____/s/_____
Diane C. Bass
Attorney for Defendant
Irene Pemkova

DECLARATION

I, Diane, C. Bass, hereby declare as follows:

1. I am an attorney at law duly licensed to practice in the Central District of California. I am the appointed attorney of record for defendant Irene Pemkova in this case.

2. The court recently advanced the trial in this matter to September 17, 2013.

3. When I advised my client of the new trial date I received notice that she would be unable to attend the trial until next year because she is suffering from a multitude of medical issues resulting from a car accident in addition to other pre-existing conditions.

4. Attached hereto as Exhibit "A" are pertinent portions of the email I received from my client setting forth her complaints. I have my client's authorization to share this information.

5. Attached hereto as Exhibit "B" is a copy of chiropractic records sent to me by my client.

6. Assistant United States Attorney Lawrence Kole has indicated that the government would object to a continuance.

7. Co-counsel take no position.

/ / /

/ / /

/ / /

1 8. I hereby, request that the set a hearing on this issue on
2 September 5, 2013 at 7:30 a.m.

3

4 I declare under penalty of perjury that the foregoing is
5 true and correct to the best of my knowledge.

Ms. Diane,

by this e-mail I kindly ask you to file for the extension transferring the trial from October 14, 2013 to for mid march or april 2014

The reasons for the extension:

1. my medical condition please, see the explanation below and the attached photo
 2. I apologise for typos and mistakes but it is extremely difficult for me to do corrections
-
1. I am having difficulty to keep standing at all even while supporting myself by the edge of the stove
 2. I do not sense the balance –mowing back and forth while staying on spread legs and bended slightly knees for better basis - normally I do not do it due to the high heels I wear all the time
 3. completely twisted posture as I was literarily pushed down by fighting the overwhelming Gs during the accident /escaping the 90 degree hit to my door, rotating over 380 degrees /not 180!/ stopping the car after the hit and run for to get the bumper, running across of the intersection – injured and on high heels in order to secure the bumper –my only evidence who has hit me!/
4. twisted, crooked and shortened spasmodically neck
 5. twisted, unlevelled narrowed shoulders compare both of them in the length and width
 6. My body muscles were not able to hold my posture and especially my torso at all and while standing up I have had to keep carrying it by my hands supported on hips. Beside I never do such position - pay attention to the position of my palms and fingers which is totally not normal unless you carry the torso This condition has persisted for moths and months after the accident in spite I have normally excellent posture and as a former semiprofessional dancer I carry my entire body in a proper balance easily even on high heels. After the accident I still cannot wear real high heels as I used to because my balance is not capable to handle it
 7. After the brain contusion my right side of the face is still slightly paralyzed – the disproportion and sagginess.- nose, cheek, stiff lips. This condition is improving very slowly and is not complete healed yet
 8. weird face expression is showing a suffered brain trauma

as per today

1. I am still suffering pain and dizziness
 2. balance problems
 3. severe headaches preventing concentration, reading and intellectual activities
 4. I cannot concentrate at all without a massive support of various herbal extracts managing my liver & lymphatic condition and after the accident I have to mix s massive dosage of the brain support
 5. I cannot concentrate for a longer period and after doing so I have to lay down and sleep
 6. my vision is extremely weak and fluctuating
- most days I am legally blind /problems with driving and related issues/
 - I cannot read without pin-glasses and any glasses are increasing headaches

- I cannot read normal texts like a book or sheet this is increasing the severe headache
- On the computer screen I have to zoom in heavily but it still does not fix a blurry vision on top of the weakness but it is shortening the of my capability to work
 7. Persisting symptoms are showing that on top of all other injuries I have suffered many hemorrhages in various parts of my body including my brain /sometimes I feel them moving/ and my primary condition – liver and lymphatic damages - do not process it fast enough. Actually I am very lucky I have not developed the septicemia yet again. I was able to get medication from Europe and I have taken it without any testing. But before getting more I have to complete that medical trip postponed by the car accident

The insurance case lawyer has approved to seek further testing and treatments – MRI, CT orthopedic surgeon for the evaluation before the spinal and foot surgery, all testing for the brain damage etc and I am strating in September as in August I am finishing the chiropractors treatments because there is not further progress anymore.

As I will be getting the medical evaluations I will submit them to you

Best regards. DrI

P.S. you can tell Judge Carter and Mr. Larry this extension is definitely the last one – or the treatments I have to go through will finally shut down my malfunctioning system with ruined liver and I will die and the case will be over or I will get better to deal with the trial

PROGRESS NOTE :

Baxter Health Center

Dr. Mark Baxter, DC

| Date of Visit : | 7/29/2013 | Visit Type : | A-Regular Adj | | |
| Referring Physician : | N/A | Check-in Time : | 3:40 PM | Check-out Time : | |

SUBJECTIVE :

Chief Complaints :

Notes: Patient stated: dizzy balance pain improved. Improvement due to patient's continuing intense exercise program at home.

OBJECTIVE FINDINGS :

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A

Regions Adjusted: (L): at T-2(Supine rib), T-5(Anterior Thoracic), L-5(Axial spinal traction). (R): at T-2(Supine rib), T-5(Anterior Thoracic), L-5(Axial spinal traction).

Notes :

Patient's shoulders are now level. hardly any T&F @ L C2. both supine T2 ribs vsIm. Reach behind is still pretty good, can touch fingertips on both sides.

ASSESSMENT :

Diagnosis :

- 723.1 - Cervicalgia
- 724.1 - Thoracic Spine Pain
- 724.2 - Lumbalgia
- 739.0 - Subluxation, Upper Cervical
- 739.1 - Subluxation, Cervical
- 739.2 - Subluxation, Thoracic
- 739.8 - Subluxation, Rib
- 784.0 - Headache, Unspecified
- 847.1 - Sprain/Strain, Cervical
- 847.2 - Sprain/Strain, Thoracic
- 847.3 - Sprain/Strain, Lumbar

Procedures :

98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL

98940 (1) - CHIROPRACTIC MANIPULATION 1-2

97140 (1) - Manual Therapy

97032 (1) - Electric Muscle Stim, Attended

97035 (1) - Ultrasound

PT/MT Notes :

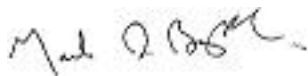

The patient will continue home therapies and exercises as previously instructed. Manual application of Electrical Muscle Stimulation and Ultrasonic sonation was applied to involved part of the cervical spine region.

Notes :

The patient is progressing as expected.

PLAN :

I will see the patient once next week.

Dr. Mark Baxter, DC

| Referring Physician : | N/A | Check-in Time : | 3:46 PM | Check-out Time : | |

SUBJECTIVE :

Chief Complaints :

Notes: Patient stated: pain dizzy balance**OBJECTIVE FINDINGS :**

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A**Regions Adjusted:** (L): at T-2(Supine rib), T-5(Anterior Thoracic), L-5(Axial spinal traction). (R): at T-2(Supine rib), T-5(Anterior Thoracic), L-5(Axial spinal traction).**Notes :**

Less T&F @ L C2. both supine T2 ribs slm. Reach behind is still pretty good, can touch fingertips on both sides.

ASSESSMENT :

Diagnosis :

723.1 - Cervicalgia

724.1 - Thoracic Spine Pain

724.2 - Lumbalgia

739.0 - Subluxation, Upper Cervical

739.1 - Subluxation, Cervical

739.2 - Subluxation, Thoracic

739.8 - Subluxation, Rib

784.0 - Headache, Unspecified

847.1 - Sprain/Strain, Cervical

847.2 - Sprain/Strain, Thoracic

847.3 - Sprain/Strain, Lumbar

Procedures :

98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL

98940 (1) - CHIROPRACTIC MANIPULATION 1-2

97140 (1) - Manual Therapy

97032 (1) - Electric Muscle Stim, Attended

97035 (1) - Ultrasound

PT/MT Notes :

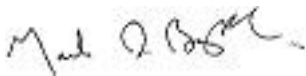

Mobilization and manual traction in the form of Muscle Energy Technique was applied to the thoraco-lumbar spinal region. Manual application of Electrical Muscle Stimulation and Ultrasonic sonation was applied to involved part of the cervical spine region.

Notes :

Condition has been exacerbated due to recent personal stress.

PLAN :

I will see the patient twice more this week, so we can get cervical paraspinal musculature relaxed enough to adjust her neck.

| Patient Name : | DR PIMKOVA , IRENA | Patient DOB : | 03/03/1958 | Patient ID : | 131158 |
| Date of Visit : | 5/3/2013 | Visit Type : | A-Regular Adj | | |
| Referring Physician : | N/A | Check-in Time : | 4:20 PM | Check-out Time : | 6:17 PM |

SUBJECTIVE :

Chief Complaints :

Notes: Patient stated: pain ballnce dizey. Has been focusing on home therapy and is gradually feeling better.

OBJECTIVE FINDINGS :

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A

Regions Adjusted: (L): at T-2(Supine rib), T-5(Anterior Thoracic), L-5(Axial spinal traction). (R): at T-2(Supine rib), T-5(Anterior Thoracic), L-5(Axial spinal traction).

Notes :

Dramatically improved hip flexibility. Shoulders also improved flexibility, including almost normal reach-behind. Still C-T and T-L tension, but less, focused over L C2 - less severe. T&F @ post L T2 rib head sem.

ASSESSMENT :

Diagnosis :

- 723.1 - Cervicalgia
- 724.1 - Thoracic Spine Pain
- 724.2 - Lumbalgia
- 739.0 - Subluxation, Upper Cervical
- 739.1 - Subluxation, Cervical
- 739.2 - Subluxation, Thoracic
- 739.8 - Subluxation, Rib
- 784.0 - Headache, Unspecified
- 847.1 - Sprain/Strain, Cervical
- 847.2 - Sprain/Strain, Thoracic
- 847.3 - Sprain/Strain, Lumbar

Patient Name: IRENA R DIMKOVA, DOB: 03/06/1958

Procedures :

98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL

98940 (1) - CHIROPRACTIC MANIPULATION 1-2

97032 (1) - Electric Muscle Stim, Attended

97035 (1) - Ultrasound

PT/MT Notes :

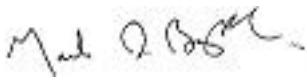

Manual application of Electrical Muscle Stimulation and Ultrasonic sonation was applied to the left low cervical spine region.

Notes :

The patient is progressing as expected.

PLAN :

Monday adjustment, Thursday therapy and Friday adjustment.

Dr. Mark Baxter, DC

OBJECTIVE FINDINGS :

Muscle Spasms: N/A
Fixations/Restricted ROM: N/A
Regions Adjusted: (L): at T-2(Supine rib), T-5(Anterior Thoracic). (R): at T-2(Supine rib), T-5(Anterior Thoracic).

Notes :
R shoulder AROM abduction and flexion both to 180 degrees now, faster, effortless movement. Level proximal clavicles. Even less T&F @ L C2, post L T2 rib head sm, T5 spinous slm. .

ASSESSMENT :

- Diagnosis :
- 723.1 - Cervicalgia
 - 724.1 - Thoracic Spine Pain
 - 724.2 - Lumbalgia
 - 739.0 - Subluxation, Upper Cervical
 - 739.1 - Subluxation, Cervical
 - 739.2 - Subluxation, Thoracic
 - 739.8 - Subluxation, Rib
 - 784.0 - Headache, Unspecified
 - 847.1 - Sprain/Strain, Cervical
 - 847.2 - Sprain/Strain, Thoracic
 - 847.3 - Sprain/Strain, Lumbar
- Procedures :
- 98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL
 - 97032 (1) - Electric Muscle Stim, Attended
 - 97035 (1) - Ultrasound
 - 98940 (1) - CHIROPRACTIC MANIPULATION 1-2

PT/MT Notes :

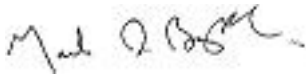

Muscle Energy Technique was applied to the thoraco-lumbar spinal region. Manual application of Electrical Muscle Stimulation and Ultrasonic sonation was applied to the involved portion of the lumbar spine region today.

Notes :

The patient is progressing as expected.

PLAN :

I will see the patient twice next week.

Dr. Mark Baxter, DC

| Referring Physician : | N/A | Check-in Time : | 1:44 PM | Check-out Time : | 4:51 PM |

SUBJECTIVE :

Chief Complaints :

Notes: Patient stated: pain, dizzy, ballance. LBP into posterior thighs is noticeably better. Last therapy was very helpful as well.

OBJECTIVE FINDINGS :

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A

Regions Adjusted: (L): at T-2(Supine rib), T-5(Anterior Thoracic). (R): at RSI(Side posture, PI, with axial traction), T-2(Supine rib), T-5(Anterior Thoracic), Shoulder(Anterior humerus).

Notes :

Grade 3/5 R Anterior Deltoid slm. Less tender R PSIS. Positive PIEX challenge on the right. Patient could not tolerate side posture adjustment, so adj w/drop ..corrected R hamstring from 3/5 to 5/5. T&F @ L C2, post bilat T2 rib heads, T5 spinous. Also blocked PIEX R.

ASSESSMENT :

Diagnosis :

- 723.1 - Cervicalgia
- 724.1 - Thoracic Spine Pain
- 724.2 - Lumbalgia
- 739.0 - Subluxation, Upper Cervical
- 739.1 - Subluxation, Cervical
- 739.2 - Subluxation, Thoracic

| Referring Physician : | N/A | Check-in Time : | 4:11 PM | Check-out Time : | |

SUBJECTIVE :

Chief Complaints :

Notes: Patient stated: dizzy, pain ballnace. Still pretty stiff, but somewhat less so, particularly in the neck and low back, due to cold front that just moved into town.

OBJECTIVE FINDINGS :

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A

Regions Adjusted: (L): at T-7(Anterior Thoracic), T-2(Supine rib). (R): at T-7(Anterior Thoracic), T-2(Supine rib), RSI(Pelvic Blocking PI).

Notes :

Increased neck and upper back paraspinal tension, still some R proximal clavicle tenderness. Shoulders level. PSIS tenderness gone w/grade 5/5 R hamstring muscles. T&F @ L C2 still. Tender @ post R T3 rib head slm), and T7 spinous (nm). R hamstring grade 3/5 weakness with R PSIS tenderness corrected with PI R blocking.

ASSESSMENT :

Diagnosis :

- 723.1 - Cervicalgia
- 724.1 - Thoracic Spine Pain
- 724.2 - Lumbalgia
- 739.0 - Subluxation, Upper Cervical
- 739.1 - Subluxation, Cervical
- 739.2 - Subluxation, Thoracic

Chief Complaints :

Notes: Patient stated: severe pain in lower thoracic region, however L UBP and shoulder feel better.

OBJECTIVE FINDINGS :

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A

Regions Adjusted: (L): at T-7(Anterior Thoracic), T-2(Supine rib), Shoulder(Anterior humerus). (R): at T-7(Anterior Thoracic), Clavicle(Superior Clavicle), Shoulder(Anterior humerus).

Notes :

R proximal clavicle slightly elevated and still quite tender. Shoulders more level. R>L PSIS tenderness w/grade 3/5 R hamstring muscle and positive PI R challenge corrected with PI R drop. T&F @ L C2 still. Tender @ post R T3 rib head (slm), and T7 spinous (slm).

ASSESSMENT :

Diagnosis :

- 723.1 - Cervicalgia
- 724.1 - Thoracic Spine Pain
- 724.2 - Lumbalgia
- 739.0 - Subluxation, Upper Cervical
- 739.1 - Subluxation, Cervical
- 739.2 - Subluxation, Thoracic
- 739.8 - Subluxation, Rib
- 784.0 - Headache, Unspecified
- 847.1 - Sprain/Strain, Cervical
- 847.2 - Sprain/Strain, Thoracic
- 847.3 - Sprain/Strain, Lumbar

Procedures :

- 98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL
- 98940 (1) - CHIROPRACTIC MANIPULATION 1-2
- 97032 (1) - Electric Muscle Stim, Attended
- 97035 (1) - Ultrasound
- 97535 (1) - ADL-SELF CARE MANAGEMENT TRAINING

PT/MT Notes :

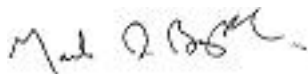

Cryotherapy was prescribed to the low back for twenty minutes on, forty minutes off, for a minimum of two hours with the ice wrapped in a light cloth to prevent freeze burn. Manual application of Electrical Muscle Stimulation and Ultrasonic sonation was applied to the lower thoracic spine today.

Notes :

Exacerbated by recent cold weather front moving into town.

PLAN :

I will see the patient once more this week.

Dr. Mark Baxter, DC

- 739.1 - Subluxation, Cervical
- 739.2 - Subluxation, Thoracic
- 739.8 - Subluxation, Rib
- 784.0 - Headache, Unspecified
- 847.1 - Sprain/Strain, Cervical
- 847.2 - Sprain/Strain, Thoracic
- 847.3 - Sprain/Strain, Lumbar

Procedures :

- 98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL
- 98940 (1) - CHIROPRACTIC MANIPULATION 1-2
- 97032 (1) - Electric Muscle Stim, Attended
- 97035 (1) - Ultrasound

PT/MT Notes :

Manual application of Electrical Muscle Stimulation and Ultrasonic sonation was applied to the low neck and upper thoracic spine on the involved side today.

Notes :

The patient has made a little progress since their last visit.

PLAN :

I will see the patient once more this week.

| Referring Physician : | N/A | Check-in Time : | 11:45 AM | Check-out Time : | 12:30 PM |

SUBJECTIVE :

Chief Complaints :

Notes: Patient stated: dizzy ballance again

OBJECTIVE FINDINGS :

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A

Regions Adjusted: (L): at T-7(Anterior Thoracic), C-7(PLI-L), T-2(Supine rib), Shoulder(Anterior humerus). (R): at T-7(Anterior Thoracic).

Notes :

Grade 3/5 L anterior deltoid. Tender @ post L>R T3 rib head (sm), and T7 spinous (slm).

ASSESSMENT :

Diagnosis :

723.1 - Cervicalgia

724.1 - Thoracic Spine Pain

724.2 - Lumbalgia

739.0 - Subluxation, Upper Cervical

739.1 - Subluxation, Cervical

739.2 - Subluxation, Thoracic

739.8 - Subluxation, Rib

784.0 - Headache, Unspecified

847.1 - Sprain/Strain, Cervical

847.2 - Sprain/Strain, Thoracic

847.3 - Sprain/Strain, Lumbar

Procedures :

98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL

98940 (1) - CHIROPRACTIC MANIPULATION 1-2

97032 (1) - Electric Muscle Stim, Attended

97035 (1) - Ultrasound

PT/MT Notes :

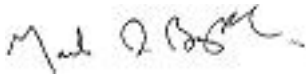

Manual application of Electrical Muscle Stimulation and Ultrasonic sonation was applied to the L low neck and upper thoracic spine.

Notes :

The patient responds favorably to treatment on an immediate basis, however symptoms continue to recur.

PLAN :

I will see the patient once more this week.

| Patient Name : | DR PIMKOVA , IRENA | Patient DOB : | 03/03/1958 | Patient ID : | 131158 |
| Date of Visit : | 7/6/2012 | Visit Type : | A-Regular Adj | | |
| Referring Physician : | N/A | Check-in Time : | 11:19 AM | Check-out Time : | 11:47 AM |

SUBJECTIVE :

Chief Complaints :

Notes: Patient stated: pain, dizzy, ballance. R UB feels fine. L UBP though.

OBJECTIVE FINDINGS :

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A

Regions Adjusted: (L): at T-3(Prone rib), T-5(Anterior Thoracic). (R): at T-5(Anterior Thoracic).

Notes :

tender @ post L T2 rib head (sm), bilat PSIS, bilat Piriformis muscles and bilat greater trochanters. Tenderness & fixation @ L Occ, L C2 assoc. w/ grade 3/5 L supraspinatus and positive hyoid challenge. Reach behind to T5 with both arms.

ASSESSMENT :

Diagnosis :

723.1 - Cervicalgia

724.1 - Thoracic Spine Pain

724.2 - Lumbalgia

739.0 - Subluxation, Upper Cervical

739.1 - Subluxation, Cervical

739.2 - Subluxation, Thoracic

739.8 - Subluxation, Rib

784.0 - Headache, Unspecified

847.1 - Sprain/Strain, Cervical

847.2 - Sprain/Strain, Thoracic

847.3 - Sprain/Strain, Lumbar

Procedures :

98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL

98940 (1) - CHIROPRACTIC MANIPULATION 1-2

PT/MT Notes :

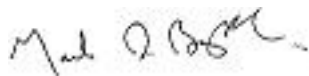

The patient will continue home therapies and exercises as previously instructed.

Notes :

The patient is progressing as expected.

PLAN :

I will see the patient twice next week.

Dr. Mark Baxter, DC

PROGRESS NOTE :

Baxter Health Center

Dr. Mark Baxter, DC

6332 S. Rainbow Blvd. Suite #120, Las Vegas, NV 89118

Phone : 702-891-8833 , Fax : 702-891-8866

| Referring Physician : | N/A | Check-in Time : | 11:17 AM | Check-out Time : | 11:51 AM |

SUBJECTIVE :

Chief Complaints :

Notes: Patient stated: pain dizziness. "Feeling much better..exercising more frequently."

OBJECTIVE FINDINGS :

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A

Regions Adjusted: (R): at T-2(Supine rib).

Notes :

VERY tender @ post bilat T2 rib heads (gsm), bilat PSIS, bilat Piriformis muscles and bilat greater trochanters. Tenderness & fixation @ L Occ, L C2 assoc. w/ grade 3/5 L supraspinatus and positive hyoid challenge. Reach behind to T5 with both arms.

ASSESSMENT :

Diagnosis :

723.1 - Cervicalgia

724.1 - Thoracic Spine Pain

724.2 - Lumbalgia

739.0 - Subluxation, Upper Cervical

739.1 - Subluxation, Cervical

739.2 - Subluxation, Thoracic

739.8 - Subluxation, Rib

784.0 - Headache, Unspecified

847.1 - Sprain/Strain, Cervical

847.2 - Sprain/Strain, Thoracic

847.3 - Sprain/Strain, Lumbar

Procedures :

98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL

97110 (1) - Therapeutic Exercises

97140 (1) - Manual Therapy

PT/MT Notes :

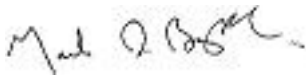

The patient will continue home therapies and exercises as previously instructed. Shoulder flexion stretching and strengthening exercises with arms fully extended overhead were prescribed to be performed 25 repetitions TID in order to improve structural stability in the cervical and upper thoracic spinal regions. Mobilization and manual traction in the form of Muscle Energy Technique was applied to the thoraco-lumbar spinal region.

Notes :

The patient is progressing as expected.

PLAN :

I will see the patient again on Friday

Dr. Mark Baxter, DC

| Referring Physician : | N/A | Check-in Time : | 11:43 AM | Check-out Time : | 12:30 PM |

SUBJECTIVE :

Chief Complaints :

Notes: Patient stated: pain decreased mobility. Better after treatment however. Increased postural stress yesterday due to working with a patient. Can now shampoo her hair for the first time since the crash.

OBJECTIVE FINDINGS :

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A

Regions Adjusted: (R): at T-2(Supine rib).

Notes :

VERY tender @ post bilat T2 rib heads (lsm), bilat PSIS, bilat Piriformis muscles and bilat greater trochanters. Tenderness & fixation @ L Occ, L C2 assoc. w/ grade 3/5 L supraspinatus and positive hyoid challenge.

ASSESSMENT :

Diagnosis :

- 723.1 - Cervicalgia
- 724.1 - Thoracic Spine Pain
- 724.2 - Lumbalgia
- 739.0 - Subluxation, Upper Cervical
- 739.1 - Subluxation, Cervical
- 739.2 - Subluxation, Thoracic
- 739.8 - Subluxation, Rib
- 784.0 - Headache, Unspecified
- 847.1 - Sprain/Strain, Cervical
- 847.2 - Sprain/Strain, Thoracic
- 847.3 - Sprain/Strain, Lumbar

Procedures :

- 98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL
- 97110 (1) - Therapeutic Exercises

PT/MT Notes :

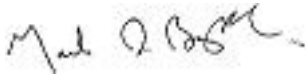

The patient received instruction on performing spinal rotation exercises in order to stretch and strengthen the paraspinal muscles throughout the cervical, thoracic and lumbar spinal regions.

Notes :

Condition has been exacerbated.

PLAN :

I will see the patient on Monday, and then determine how many additional visits are needed next week

Patient Name : DR PIMKOVA , IRENA Patient DOB : 03/03/1958 Patient ID : 131158
 Date of Visit : 6/26/2012 Visit Type : New Pt
 Referring Physician : N/A Check-in Time : 2:47 PM Check-out Time : 5:08 PM

SUBJECTIVE :

Chief Complaints :
History of Present Illness : IRENA DR PIMKOVA is a 55 year old female.

Notes: DOL 6-8-2012. Patient was driver, at-fault vehicle struck driver's side of car broadside at approximately 70 mph. Impact just behind patient's seat. Caused patient's vehicle to rotate 380 degrees. Patient was not transported by ambulance. L side of skull struck driver's side of car at the time of the impact. Patient vomited immediately after the crash. Patient has not received any x-ray evaluation. Patient suffered 80% loss of liver due to autoimmune disease. Patient was bed-bound at home for two weeks. Headaches, UBP, MBP, LBP and pain in all the extremities. NLC at scene of the crash. However, patient has retrograde amnesia of the first 90 minutes once she got home. L shoulder, R elbow & R wrist pain also.

OBJECTIVE FINDINGS :

Tests - ROM:

| Cervical ROM | Normal | Observed | Pain Level | Notes |
|-----------------------|--------|----------|------------|-------|
| Flexion | 50 | 25 | | |
| Extension | 60 | 15 | | |
| Right Lateral Flexion | 45 | 25 | | |
| Left Lateral Flexion | 45 | 25 | | |
| Right Rotation | 80 | 50 | | |
| Left Rotation | 80 | 45 | | |

Tests - Ortho Neuro:

| Test Name | Findings | Notes | Indication |
|---|--------------------------|---------------|------------|
| 1 Cervical Compression Test | Positive Bilaterally | UN | |
| 2 Cervical Distraction | Negative Bilaterally | Increased LNP | |
| 3 Jacksons Compression test | | ITP | |
| 4 Shoulder Depression Test | Positive Bilaterally | | |
| 5 Foramina Compression Test | Positive Left | | |
| 6 Reflexes - Triceps - C7 | Normal - 5/5 Bilaterally | | |
| 7 Reflexes - Biceps - C5/C6 | Normal - 5/5 Bilaterally | | |
| 8 Reflexes - Brachioradialis - C6 | Normal - 5/5 Bilaterally | | |
| 1 Lasegues | Negative Bilaterally | | |
| 4 Bilateral Passive Straight Leg Lowering | Positive Bilaterally | | |
| 6 Nachlas | Positive Left | | |
| 7 Eli | Positive Left | | |
| 8 Hibbs | Positive Left | | |
| 9 Yeomans | Positive Bilaterally | | |
| 91 Patellar Reflex | Normal Bilaterally | | |
| 92 Achilles Reflex | Normal Bilaterally | | |

XRays:

| Region | Description | Body part | Severity/Grade | Comments |
|----------|---------------|---------------------|----------------|----------------------------|
| Cervical | | X-ray number A-2723 | | |
| Cervical | Subluxation | | Moderate | C2 PL, C7 PR, T1 PR, T2 PL |
| Cervical | Disk Thinning | | Mild | C5-6 |
| Cervical | Hypolordosis | | Mild | |

Muscle Spasms: N/A

Fixations/Restricted ROM: N/A

Regions Adjusted: (R): at T-2(Supine rib).

Notes :

VERY tender @ post bilat T2 rib heads, bilat PSIS, bilat Piriformis muscles and bilat greater trochanters. Tenderness & fixation @ L Occ, L C2 assoc. w/ grade 3/5 L supraspinatus and positive hyoid challenge.

ASSESSMENT :

Diagnosis :

- 723.1 - Cervicalgia
- 724.1 - Thoracic Spine Pain
- 724.2 - Lumbalgia
- 739.0 - Subluxation, Upper Cervical
- 739.1 - Subluxation, Cervical
- 739.2 - Subluxation, Thoracic
- 739.8 - Subluxation, Rib
- 784.0 - Headache, Unspecified
- 847.1 - Sprain/Strain, Cervical
- 847.2 - Sprain/Strain, Thoracic
- 847.3 - Sprain/Strain, Lumbar

Procedures :

- 99203 (1) - NP E&M, Detailed
- 72040 (1) - Cervical AP & Lat
- 97535 (1) - ADL-SELF CARE MANAGEMENT TRAINING
- 98943 (1) - CHIROPRACTIC MANIPULATION EXTRASPINAL

PT/MT Notes :

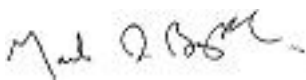

Ice massage was prescribed to be performed at home for 15 minutes one to two times per day to the involved greater trochanter in order to assist in resolving Greater Trochanteric Bursitis. Tennis Ball Therapy was prescribed to the involved Piriformis muscle each evening in order to facilitate resolution of Piriformis Syndrome.

Notes :

This is the initial visit for this patient.

PLAN :

. Patient was self-administering lymphatic massage while bed bound at home. I will see the patient once more this week.

Dr. Mark Baxter, DC
